A.G.S. Automotive

As you may recall, we featured a project for A.G.S. Automotive Systems last October which was for the front bumper on a 2015 GMC HD Pickup Truck. We just completed another project for A.G.S. Automotive and their Sterling Heights, Michigan facility. This included the design and building of a string of 8 transfer dies plus the blank die for the rear bumper on an upcoming 2015 GM small truck. The actual parts will be run at A.G.S.' Cambridge, Ontario plant with a robotic transfer process.

Dave Bean has been our die leader on this project with assistance from a number of GTD employees: Dave Christensen, Devin Cunningham, Justin Stump, Jeff Waite, and Ryan Sandtveit.

Mark Heintzelman was our design leader. Those working with Mark were: Tim Gasper, Robbie Rahn, Marty Bush, Justin Heimbecker, and Dick Grimm.
