

Meet Our New Try Out Leader

In June, John Senn became GTD's newest Try Out Leader. In this position, John oversees new and modified dies to ensure they meet production requirements and design specifications, along with conducting the final tests on the dies. John works closely with engineering, toolmakers, and production staff to meet GTD's strict quality requirements.

Previously, John was a Tool & Die Maker for 24 years, so his extensive knowledge and experience will guide him in this new role.

Congratulations John!

Second Quarter Service Awards
